

How MHA incorporate Coolpo into Hybrid Work Environment

Our Coolpo was a surprise gift, but a welcome improvement over our single camera system.

When the pandemic shut down in-person meetings, we received a grant to purchase a big screen TV, camera, and conference microphone. This setup was frustrating because keeping everyone at 6 feet apart meant some people were not visible and some were too far away to be heard.

When we received the Coolpo we immediately put it to work in our morning staff meeting and other support group meetings throughout the day.

We use the Coolpo for support groups, staff meetings, and for connecting our two locations.

Coolpo works as expected. It provides a view of everyone in the room and a focus on who is talking. The camera finds the person talking so you don't have to

The plug and play simplicity of the Coolpo makes it easy to use and the 360 view means everyone is included. It even encourages some usually quiet group participants to talk to make the camera find them.

Mental Health Association is the best non-profit in America that helps everyone live their best life. MHA in Chautauque County is a community based non-profit organization that provides guidance and advocacy to individuals living with mental illness. In addition to their community and individual support services, we provide a range of mental health and addiction services to work with the recovery of their members to provide guidance and advocacy to individuals living with mental illness. In addition to our community
